PROFESSIONAL SUMMARY

SOC Analyst with hands-on experience in security alert investigation, incident analysis, and SIEM operations across endpoint, network, cloud, and identity environments. Worked with multiple SIEM, EDR and NDR platforms, contributed to root-cause analysis during a real-world ransomware incident, and built SOC automation workflows using n8n. Actively building toward SOC L2 responsibilities including SIEM administration, log-source onboarding, and detection engineering.

CORE SKILLS

Security Operations: Security Monitoring, Alert Investigation, Incident Analysis, Root Cause Analysis, Log Analysis, Threat Hunting, Network Security Analysis.

SIEM: Wazuh, Seceon, SolarWinds Security Event Manager (SEM)

EDR / XDR / NDR: CrowdStrike EDR, Rapid7 MDR, Darktrace NDR

Cloud & Microsoft Security: Microsoft Azure, Microsoft Sentinel, Azure Arc, Azure Log Analytics, Microsoft 365, Windows Server, Sysmon

Programming & Database: Python, PostgreSQL

Linux: Linux Fundamentals, jq, Command-Line Operations

Automation: n8n

PROFESSIONAL EXPERIENCE

SOC Analyst L1 — Auriseg

June 2025 – Present | Chennai, Tamil Nadu, India

- Investigate and triage security alerts across endpoint, network, cloud, and identity events as part of first-level SOC monitoring.
- Support Level 2 activities on selected projects, including deeper investigation and escalation handling.
- Operate and monitor multiple SIEM, EDR/XDR, and NDR platforms for continuous security visibility.
- Contributed to the investigation and root-cause analysis of a real-world ransomware incident.
- Design and maintain security automation workflows using n8n to streamline SOC operations.
- Work with Microsoft cloud and security technologies to support monitoring and investigation activities.

SECURITY LAB PROJECTS

AD + Microsoft Sentinel Security Monitoring Lab

- Installed and configured Windows Server; promoted it as a Domain Controller.
- Connected the environment to Azure via Azure Arc and configured security log collection into Azure Log Analytics.
- Connected Microsoft Sentinel, built Analytics Rules for detection, and explored automation/runbook concepts.

Cross-Network Windows Domain Controller Lab

- Built a Domain Controller environment and connected Windows machines across separate network environments using Tailscale.
- Joined remote machines to the domain and configured/tested Group Policy across a hybrid on-premises and cloud setup.

Wazuh Multi-Node Distributed SIEM Deployment

- Deployed Wazuh Indexer, Manager, and Dashboard on separate virtual machines and configured inter-component connectivity.
- Verified successful end-to-end operation of the distributed SIEM deployment.

CERTIFICATIONS & LEARNING

- NES 1 — Completed

EDUCATION

B.Tech, Artificial Intelligence and Data Science

Rathinam Technical Campus, Coimbatore | 2021 – 2025 | CGPA: 8.2
